Professional Profile

Dynamic and analytical Software Development Trainee with a foundational core in full-stack web technologies and over 5 years of top-tier corporate customer operations experience. Currently accelerating technical expertise through Life Choices Academy's immersive YouthCode programme, focusing on interactive front-end development, software logic, and Git-driven team workflows. Combines technical problem-solving capabilities with a proven professional track record of maintaining 92%+ customer satisfaction (CSAT) metrics in high-volume, regulatory environments.

Technical Projects & Training

Software Development Trainee (YouthCode Pathway) *Life Choices Academy – Cape Town | April 2026 – Present*

- Develop and structure responsive, interactive web pages using semantic HTML5, modern CSS3 layout techniques, and dynamic JavaScript (ES6+).
- Build foundational programmatic logic and clean syntax architecture by engineering agile solutions to algorithmic coding challenges.
- Leverage GitHub and Git for rigorous version control, repository maintenance, and collaborative codebase management within team-driven projects.
- Collaborate in peer developer groups to build multi-page web applications that accurately simulate real-world client requirements.
- Deepen domain expertise in industry infrastructure by preparing for systematic ICT frameworks and cybersecurity technical assessments.

Professional Experience

Customer Service Expert *Teleperformance SA – Cape Town | April 2025 – April 2026*

- Fielded complex inbound omni-channel queries from corporate policyholders concerning coverage limits, account billing structures, and active claims.
- Interpreted and simplified complex financial policies, executed secure account changes, and guided clients through strict claims compliance workflows.
- Consistently achieved and sustained an outstanding 92%+ Customer Satisfaction (CSAT) score and an 85% First Call Resolution (FCR) average.
- Safeguarded sensitive user profile accounts by executing all operational data updates within strict regulatory frameworks.

Customer Service Senior Associate *WNS Global Services – Cape Town | April 2024 – April 2025*

- Delivered high-quality customer support, professionally resolving escalated client inquiries via phone calls, emails, and live chat platforms.
- Managed end-to-end online purchase cycles, processing client transactions and tracking cargo logistics to ensure on-time delivery.
- Served as a dedicated lifestyle and product advisor, utilizing targeted product knowledge to boost customer retention and brand equity.

Customer Service Representative *Ignition Group – Cape Town | May 2023 – December 2023*

- Navigated specialized financial database systems to audit, break down, and clarify intricate account statements for customers.
- Conducted structured technical troubleshooting to resolve platform usage and access issues, minimizing customer downtime.

Retail Assistant / Cashier *Rage Distribution – Cape Town | January 2022 – March 2023*

- Executed daily visual merchandising protocols and cash management operations, successfully balancing capital sheets with 100% mathematical precision.

Customer Service Agent *Webhelp – Cape Town | April 2020 – July 2021*

- Handled, logged, and systematically resolved high-volume consumer product issues while maintaining high empathy metrics.

Education

National Certificate: Electrical Engineering (N1, N2) *Boland College | 2021*

Matric NSC *KwaMfundo Senior Secondary School | 2019*
